

XVI Convegno AIAM 2013

"Agrometeorologia per la sicurezza ambientale ed alimentare"
Firenze, 4 - 6 giugno 2013

Nota bene: i riassunti estesi completi (così come compaiono negli Atti del Convegno) possono essere richiesti direttamente all'Editore.

Sessione - Technical-scientific development and modeling:

- [Influence of climatic variables and soil water content on the soil microorganisms activities](#)
-
Bardi L., Spanna F., Bourlot G., Vercellino I., Zoppellari F.
- [Fluctuations and trends of piezometric levels: a case study in Abruzzo](#) - *Rusi S., Chiaudani A., Palmucci W., Di Lena B.*
□
- [A clustering analysis of MESONET station network for rain and temperature in Friuli Venezia Giulia](#) - *Cicogna A., Manzato A.*
- [Development of an agrometeorological monitoring system low cost and open source](#) - *Di Gennaro S.F., Primicerio J., Matese A., Albanese L.*
- [Carbon balance in a kiwi fruit orchard through the combination of micrometeorological eddy covariance and life cycle assessment approaches](#) - *Rossi F., Facini O., DiVirgilio N., Georgiadis T., Nardino M.*
- [MIMYCS.MOISTURE, a process-based model of moisture content in developing maize kernels](#) - *Maiorano A., Marcello Donatelli M.*
- [Modelling winter survival and potential distribution of *Sesamia nonagrioides* under climate change in Europe](#) - *Maiorano A., Donatelli M.*
- [VINTAGE: sviluppo di un sistema complesso di assistenza alla viticoltura](#) - *Antolini G., Campagnolo S., Costa F., Grosso V., Marletto V., Nascimben J., Tomei F., Villani G., Volta A.*
- [Simulation of grazed grassland productivity in Ethiopian highlands](#) - *Mariani L., Parisi S.G., Gilioli G.*
- [Metrology for meteorology in agricultural sites](#) - *Sanna F., Roggero G., Deboli R., Merlone A.*
- [Monitoring soil electrical resistance in vineyards](#) - *Toller G., Andreis D., Biasi A., Biasi A., Caset D., Corradini S., Faustini A., Paternoulli U., Piffer I., Sartori G., Zottele F.*

Poster

- [Time series analyses and validation of IPHEN phenological model for locust tree](#) - *Alilla r., Epifani c., Dal Monte G.*
- [Growth and production estimation of italian tomato protected crops by modified TOMGRO model](#) - *Bacci L., Battista P., Rapi B., Romani M., Incrocci L., Pardossi A.*
- [Mitigation of NH emissions due to cattle slurry fertilisation](#) - *Carozzi M., Ferrara R.M., Chiodini M., Giussani A., Minoli S., Perego A., Fumagalli M., Sanna M., Rocca A., Alfieri*

L., Rana G., Acutis M.

- [Application of an operational one-step model for estimating daily actual evapotranspiration of irrigated tomato crops](#) - Ferrara R.M., Rana G., Martinelli N., Lazzara P., Rossi R.
- [AGRICO 2 LTURA: evaluation of techniques for increasing soil carbon sequestration and reducing CO₂ emission in agricultural system](#) - Giussani A., Perego A., Alfieri L., Carozzi M., Chiodini M., Fumagalli M., Rocca A., Sanna M., Brenna S., Corsi S., Tosini A., Acutis M.
- [Soluble solids content and titratable acidity estimates for "MÁXIMO" grapevine as a function of degree-days for summer and winter growing seasons](#) - Mário José Pedro Júnior,, José Luiz Hernandez, Gabriel Constantino Blain
- [Correlation between evaluation models indicators](#) - Rocca A., Giussani A., Sanna M., Perego A., Fumagalli M., Carozzi M., Chiodini M., Bregaglio S., Confalonieri R., Acutis M.
- [Effects of temperature and solar radiation on giant reed \(*Arundo donax* L.\) development and growth](#)
- Volta A., Villani G., Ceotto E., Marletto V.

Sessione - Services and applications of agrometeorology (with WMO):

- [DCPC implementation for wamis service](#) - Sungsoo DO, Sunghoi HUH, O-Ung KWON , Won Geun EOM, Byong-Lyol LEE
- [ENVIRO: a webgis tool for managing plant/pest/pathogen interactions](#) - De Filippi R., Caffarra A., Dolci C., Droghetti S., Eccel E.
- [Projection of the climate change for Asia region with the high-resolution AGCM based on the RCP scenarios](#) - Jai-Ho Oh, Sumin Woo, Kyoung-Min Lee
- [Analysis of cross-compiler compatibility for a crop growth simulation model using C++ and Fortran](#) - Kwang Soo Kim, Haneul Jeong
- [Wind speed and phytosanitary treatments in agricultural metaponto areas](#) - Lacertosa G., Scalcione E., Cardinale N., Montemurro F., Caponero A.
- [Governance scheme for giam under GFCS implementation strategy by CAGM](#) - Byong-Lyo Lee, Rossi F., Motha R., Stefanski R.
- [VINIVERli - technological innovation for the vineyard management](#) - Spanna F., La Iacona T., Vercellino I., Cappellano A., Boeris Frusca M., Molino A., Mollo P., Torrero L., Vitali M., Ferrandino A., Lovisolò C., De Marziis M., Alemanno L., Rossi V., Caffi T., Salinari F., Serrao G., Grasso A., Conti A.

- [Analysis and validation of meteorological forecasts in Piedmont region](#) - Lazzarato F., Spanna F., Loglisci N., Cassardo C., Salerno R.

Poster

- [Development of an integrated system to identify and monitor nitrates vulnerable zones \(ZVN\) in Apulia region: a tool to support planning activities aimed to regional water resources protection](#) - Ancona V., Calabrese A., Uricchio V.F., Iannarelli M.A., Pedalino M., Palmisano V.N.
- [Irrigated requirements' analysis of some horticulture, with spring-summer cycle, situated on Vibrata Valley in the province of Teramo](#) - Di Lena B., Antenucci F., Fiore P.
- [ARPAS phenological network of Sardinia](#) - Capace P.
- [Merging of radar estimate rain and surface observations to create maps of spatialized rain](#) - Cicogna A., Salvador M., Micheletti S.
- [Updates on the national phenological database](#) - Epifani C., Alilla R., Scano R., Dal Monte G.
- [Review of agrometeorological products/services to improve implementation and impact. Drought monitoring, early warning and information systems](#) - Eitzinger J., Susnik A., Lalic B., Anastasiou D.P., Struzik P., Kozyra J., Mateescu E., Rossi F., Mariani L., Spirig C., Saylan L., Otte U., Fruehauf C., Eckersten H.
- [An integrated model for phenological development and growth of grapevine \(*Vitis vinifera* \)](#) [L.](#)
Volta A., Villani G., Marletto V., Caffarra A., Bois B.

Sessione - Adaptation to climate variability and extremes:

- [Crop irrigation requirements valuation through remote sensing](#) - Altobelli F., Nino P., Vanino S., De Michele C., Vuolo F.

- [Olive oil adaptation of temperature of growth](#) - *Bongi G., Ranocchia C.*
- [Integrated master plan for environmental regeneration of siligo landscape in Sardinia](#) - *Capece P., Mannu G., Fiori M., Bianco G., Canu S., Urgeghe G.*

- [The phenological garden of Villa Margherita for the monitoring of Mediterranean vegetation](#) - *Caterisano R., Cirone P., Mariani L.*
- [The late 80s breakpoint of European climate and the consequent change in the spatial distribution of relevant crops](#) - *Mariani L., Parisi S.G., Cola G., Failla O.*
- [Carbon footprint of a agroenergy local supply chain in the Tuscany Appennine](#) - *Dalla Marta A., Mancini M., Vignini A.M., Orlando F., Maracchi G., Orlandini S.*

- [Projected climate impacts on the natural pasturelands of the Italian Alps](#) - *Dibari C., Argenti G., Moriondo M., Bindi M.*

- [Agriculture, food, environment – finding the balance is not a trivial pursuit](#) - *Eccel E., Grasso V., Alvisi F.*

- [Dimensioning of field ditches in function of heavy and frequent precipitations](#) - *Mariani L., Cola G., Parisi S.G.*

- [Relation between NDVI and-rainfall in a apennines beech forest](#) - *Muzzi E., Spisni A., Lettieri G.*
- [Green and blue water for the cultivation of tomato in Puglia](#) - *Ventrella D., Giglio L.*

Poster

- [Durum wheat grain yield and quality under elevated CO₂](#) - *Badeck F.W., Fares C., Rizza F., Maré C., Mazzucotelli E., Cattivelli L., Zaldei A., Miglietta F.*

- [Some results about a first statistical analysis on the long-term thermometric series of Rome Collegio Romano](#) - *Beltrano M.C., Sorrenti S.*
- [Climate change evidences in central Italy](#) - *Bonofiglio T., Orlandi F., Fornaciari M.*
- [Historical analysis of maximum intensity precipitation \(1, 3, 6, 12 hours\) in Abruzzo region \(Italy\)](#) - *Chiaudani A., Antenucci F., Di Lena B.*
- [Trends in extreme daily rainfall in the Abruzzo region](#) - *Di Lena B., Vergni L.*
- [FORESTERRA project: an useful forestry tool for mapping of existing funding programmes and research capacities in the Mediterranean area](#) - *Scarascia Mugnozza G., Bajocco S., Raparelli E., Nardi P., Perini L., Di Matteo G.*

- [Environmental sustainability of the fruit cultivation: the case of study of Metapontino](#) - *Sclione E., Montemurro G., Lacertosa G. Cardinale N., Montemurro F.*

- [Precipitation and temperature extremes trends in a hilly area in the Northern-litaly Appenines](#) - *Ventura F., Rondini D., Pieri L., Rossi Pisa P.*
